

Your lighting guide.

Your guide to selecting the perfect fixtures for your space.

The lighting and ceiling fans you select for your home should not only be functional, it is your opportunity to express your personality and elevate each room's design aesthetic. While there are many choices to make during the selection process, it doesn't have to be overwhelming. This catalog is intentionally designed so you can quickly understand different options and characteristics of each fixture category. It is your guide to easily and efficiently plan functional, beautiful lighting for every room in your home.

Featuring Elara

Using this tool.

STEP

01

Go to the **Product Finder** starting on page 04 to search for your perfect fixture.

STEP

02

Use colored tabs to quickly turn to product sections.

STEP

03

Get more detailed information by searching the product number at: **ProgressLighting.com**

The Complete Expression of Style

STYLE YOUR ROOM

Find inspiration for your next
project on [progresslighting.com](https://www.progresslighting.com)

Modern design emphasizes clean, uncluttered lines in furniture and nature-inspired, tactile furnishings. Substantial metal-toned lighting from the Parkhurst Collection features a solid yet elegant ring and crisp glass shades that balance curved furniture shapes.

① In this section

You'll find a close up view for featured collections, as well as available products and finishes offered within a collection.

② Quick selection

Use the **Product Finder**, page 4, to quickly see all collections offered in this catalog.

③ Want more?

Design Series offers more elevated product options. Use QR to view: **DESIGN+SERIES™**

④ Complete the look

Look out for **"Also In"** to find expanded collections in other sections like Bath, Pendants, and Ceiling Fans.

Collections Guide

Parkhurst

Graceful curves and bold angles combine to create a softly structured look in Parkhurst. An airy frame defines the form to produce unobstructed layers of light.

FEATURED PRODUCT

Parkhurst

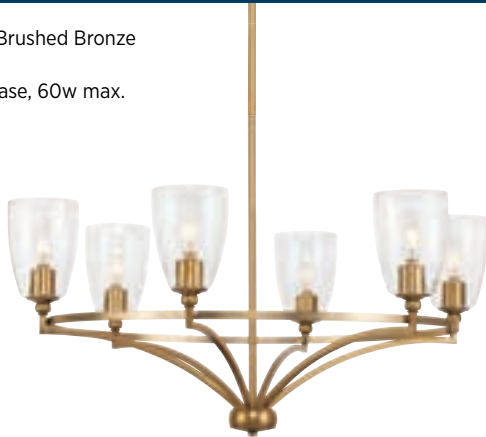

This dining room offers a calm and soothing ambiance from plenty of natural light, furniture fashioned from warm wood, and simple décor. The Parkhurst chandelier strikes a bright note as it combines a warm brushed bronze finish with graceful curves and bold angles, creating an airy structure that defines the form and produces unobstructed layers of light.

FEATURED PRODUCT

Elara

Rich, luxurious blue and gold furniture and décor pop against a crisp white color palette. The versatile Elara Collection's slender, chic form has stylized finials inspired by a chess pawn. The lighting has a simple, elegant style when used without a shade, or easily change the fixture's look by selecting a clear glass shade for modern flair and linen or opal shades for a more traditional design (Shades sold separately).

FEATURED PRODUCT

Landree

Provide a youthful balance to traditional furniture by choosing a pair of graceful, open Landree pendants in a fresh mixed metal finish. Use neutral hues not only on the walls but on the classically styled dining room set to showcase its curved forms and contribute a modern flair to the setting. Remember that less is more and pare down accessories to make a more significant impact in a room.

Briarwood

Wood tones, natural textures, and calming colors from nature are some of the forms and materials used to create a warm organic feel in the bedroom. The various faux wood finishes on the popular Briarwood Collection fixtures showcase a classic windowpane design and lend a charmingly organic look that elevates the aesthetic.

- P8757-143** Graphite
- P8757-151** Cottage White
- P8757-160** Brushed Brass
- P8757-161** Aged Brass

- 10 feet of 9 gauge chain permits installation of large chain-hung fixtures on high ceilings.
- Maximum fixture weight – 50 lbs.

- P8758-163** Vintage Brass
- P8758-175** Distressed Brass
- P8758-196** Aged Bronze
- P8758-31M** Matte Black

- 4 feet of 9 gauge chain permits installation of large chain-hung fixtures on high ceilings.
- Maximum fixture weight – 50 lbs.

Pendant Accessories

Socket Collar Tool

The socket collar tool provides extra leverage and eliminates a loose fit when installing glass shades. Working like a wrench, the socket collar tool extends into the shade and tightens the socket ring, securing the shade in place, and can reverse to loosen the ring to remove the shade. This accessory can be used on a variety of fixtures, including chandeliers, mini-pendants, sconces and wall brackets.

P8685-01 Socket Collar Tool
2-5/8" dia., 7-7/8" tall.

Stem Kits

Contains (2) 12" and (2) 15" stems and couplings.

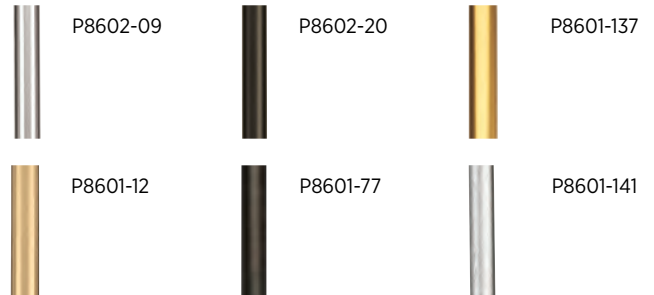

- P8601-09** Brushed Nickel
- P8601-12** Satin Brass
- P8601-15** Polished Chrome
- P8601-20** Antique Bronze
- P8601-31** Black
- P8601-71** Gilded Iron
- P8601-74** Venetian Bronze
- P8601-77** Forged Bronze
- P8601-78** Vintage Gold
- P8601-81** Antique Nickel

- P8601-104** Polished Nickel
- P8601-108** Oil Rubbed Bronze
- P8601-109** Brushed Bronze
- P8601-134** Silver Ridge
- P8601-137** Natural Brass
- P8601-141** Galvanized
- P8601-143** Graphite
- P8601-151** Cottage White
- P8601-160** Brushed Brass
- P8601-161** Aged Brass

Contains (2) 6" and (1) 12" stems and couplings.

- P8602-09** Brushed Nickel
- P8602-20** Antique Bronze
- P8602-31M** Matte Black
- P8602-163** Vintage Brass
- P8602-168** Antique Gold

Ceiling Fans

DISCOVER
THE LATEST

Featuring Upshur

The Coolest Styles Around

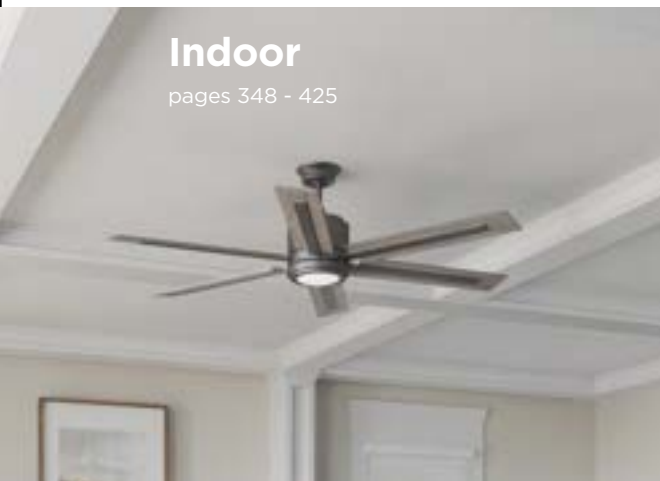

STYLE YOUR ROOM

Find inspiration for your next project on [progresslighting.com](https://www.progresslighting.com)

Accent a feature ceiling with a fan that complements its warm wood tones. The Upshur ceiling fan delivers a modern look from three hand-finished ABS blades in gray weathered wood. The blades have a distinctive, angled design and are mounted directly to the flywheel to complete the fan's sleek style.

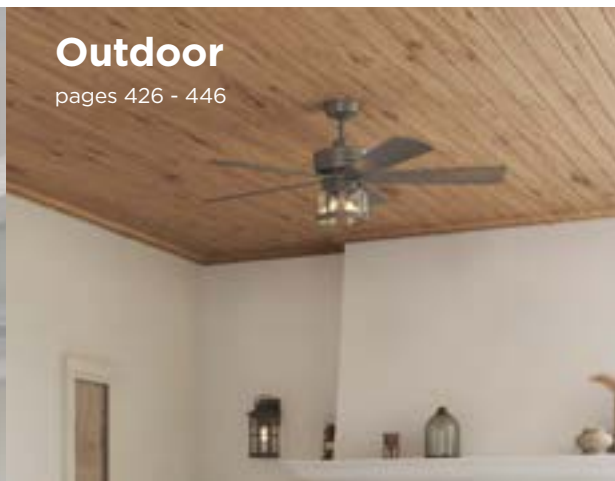

① In this section

Our indoor and outdoor ceiling fans complement various design trends while controlling airflow year-round.

Indoor

pages 348 - 425

Outdoor

pages 426 - 446

② Reversible Blades

Fan blades are finished on both sides, offering two options to coordinate with a room's design aesthetic.

③ Pick the Perfect Fan

Watch this video to find the perfect fan featuring Steve Register, Progress Lighting Sr. Product Manager.

④ Fan Icons

Important icons to know the meaning. Complete descriptions are on page 777.

Remotes and Wall Controls

P2662-01 Fan/Light Remote
2.37" L, 0.87" D, 4.5" ht.

Universal remote operates three fan speeds and full-range dimming light control. Includes canopy receiver and wall storage bracket. Will work with LED lamps and modules. Featuring four "dip" switches and 16 code options to avoid the chance of interference from other remotes.

P2667-031 WiFi Fan/Light Remote
1.75" L, 0.5" D, 4.37" ht.

Universal WiFi remote control for AC motor fans. Control your ceiling fan or light kit via WiFi from anywhere. Pairs with Alexa, Google Home, or app on your phone or tablet. Voice control the fan with three speeds and the light with full range dimming. App control the fan with three speeds or four timer selections or full range dimming control of the light. Can be controlled with the hand held remote included with the kit.

P2663-01 Fan/Light Remote
1.75" L, 0.5" D, 4.37" ht.

Universal remote with two, four or eight-hour timer option, operates three fan speeds and full-range dimming light control. Includes canopy receiver and wall storage bracket. Will work with LED lamps and modules. Featuring many code combination options to avoid the chance of interference from other remotes.

P2618-01 Fan/Light Remote
2.12" L, 1.12" D, 4.75" ht.

Provides fan speed and light control from convenient hand-held remote. Compatible with non-dimmable compact fluorescent lamps. For single pole applications. Receiver fits in fan canopy.

P2661-01 Universal Fan/Light Remote
2.75" L, 0.87" D, 4.56" ht.

Provides fan speed and full range light dimming control from a convenient hand held remote control. For single pole applications. Includes a wall plate for added storage convenience. Receiver fits in the fan canopy.

P2665-30 White

Universal remote includes a wall mount transmitter, ideal for multi-family applications, that operates three fan speeds and full-range dimming light control. Includes canopy receiver and wall storage bracket. Will work with LED lamps and modules. Featuring four "dip" switches and 16 code options to avoid the chance of interference from other remotes.

P2631-30 White
Full-function wall control transmitter (receiver sold with ceiling fan). Use with, or in place of, hand-held remote included with fans that have a downlight. Includes switch plate cover.

P2630-30 White
Four-speed fan wall control with full-range light dimmer. Fits single-gang wall box; requires two circuits. Includes switch plate cover. Not for use with multiple fans.

P2613-30 White
Four-speed fan wall control. Includes switch plate cover. Not for use with multiple fans.

P2673-01 Unfinished
DC Fan WiFi Module
Add the WiFi module to your Ryne or 52" Springer ceiling fan ceiling fan for control at your fingertips. You can easily control your fan with a hand-held remote; or a smart phone, tablet, voice assistant (Amazon Alexa and Google Home) via the Smart By Bond app. 2" L, 2" D, 0.9" ht.

Stylish Lighting Solutions

STYLE YOUR ROOM

Find inspiration for your next project on [progresslighting.com](https://www.progresslighting.com)

Highlight a neutral bathroom palette with lighting that delivers tactile appeal. The Beckner Collection reflects mid-century and industrial style with mechanical knobs and hooded lights. Its versatile design can be mounted facing up for ambient illumination or pointing down to deliver task lighting.

① In this section

These icons depict whether a vanity light has flexible mounting options.

Maximize Your Curb Appeal

STYLE YOUR ROOM

Find inspiration for your next project on [progresslighting.com](https://www.progresslighting.com)

Modern design elements are reinvented as sleek outdoor lighting pieces with strong geometric lines and airy open frames. The Stallworth Collection is a contemporary take on classic lantern styling using angular lines and a Dark Sky Friendly cylindrical metal shade to project a wash of warm downlight.

① DURASHIELD

Outdoor collections with Progress Lighting **DURASHIELD** are built to last. High performance materials hold up in all conditions and resists rust and corrosion and fading. Look for the **DURASHIELD** icon in this Outdoor section.

Outdoor Guide

Swansea

The Swansea Collection is distinguished by strong geometric lines and crisp, clear glass shades to create an open, minimalist frame.

FINISH

31M Matte Black

Swansea

P550129-31M Matte Black
36" W., 11" ht.
4 medium base, 60w max.

P550128-31M Matte Black
18" sq., 17.25" ht.
4 candelabra base, 60w max.

P550130-31M Matte Black
24" dia., 23" ht.
5 candelabra base, 60w max.

Chapel

The Chapel Collection presents an overscale open metal frame that provides a stunning focal point for covered outdoor areas. A seeded glass candelabra is nestled within, casting warm, welcome illumination.

FINISH

031 Textured Black

P550131-031

P550131-031 Textured Black
18.12" sq., 22.12" ht.
4 candelabra base, 60w max.

Brenham

The Brenham Collection offers a true farmhouse feel with its mixed elements design. Wood accent rings bookend the top and bottom of each fixture as a black metal frame with simple metal bars and ribbon-like metal arms reach down from a central metal link chain. This collection is perfect for illuminating a covered patio during a warm summer evening.

FINISH

031 Matte Black

P500235-031

P500235-031 Matte Black

What are Dark Sky Fixtures?

Lighting fixtures can help protect the beauty of the nighttime sky by limiting illumination that is cast upwards.

Progress Lighting lanterns identified with the Dark Sky icon deliver this feature by providing a full-cutoff design with no light cast above the fixture and upward reflected light limited to <10% of the delivered lumens. When selecting a light bulb, choose one that is 3000K or less as recommended by international dark sky initiatives.

All fixtures:

Callahan LED

Callahan draws inspiration from farmhouse decor. Hidden within this vintage frame is a modern LED light source that delivers energy-efficient performance. The inner surface of the shade is accented with a contrasting finish to complete the nostalgic look.

Recessed Downlighting

Everlume® Recessed LED

With a slim profile and using the latest LED technology, Everlume Recessed Downlights offer long lasting, energy saving and high quality illumination to homes and commercial spaces. Its edge-lit surface delivers low glare light. Its crisp white silhouette blends quietly into its surroundings. By eliminating the need for an additional recessed housing, Everlume Recessed Downlights are easily installed into new construction and remodel ceiling applications.

Intrinsic Recessed LED

Elevate any room's design with the Intrinsic Recessed LED collection, offered in smooth or baffle trim design options. The simple, classic design and adjustable mounting options of these light fixtures provide easy installation in a variety of 5-inch and 6-inch recessed housings. The trims are preset to work with 6-inch recessed housings out of the box and are provided with an E26 medium base socket adaptor.

Smooth

A smooth polycarbonate trim ring houses an integrated LED light ready to emit general ambient lighting. The non-metallic construction is a dead front design that will not corrode. Torsion spring mounting provides easy installation into most 5-inch and 6-inch recessed housings.

Baffle 5-CCT

The baffle trim reduces glare and provides a familiar and classic look. The 5-CCT selectable LED light engine offers flexibility in application, allowing the choice of 5 different color temperatures: warm, soft, bright, cool or daylight. Select the best lighting color to highlight the décor or to match the function of the space. The friction spring mounting allows for universal installation into most 5-inch and 6-inch recessed housings.

Intrinsic Recessed LED

High Lumen

Achieve your design vision with our Intrinsic High Lumen LED. The simple, classic design and 5 - 6 in. adjustability of this light fixture can easily be installed into a variety of style applications in both residential and light commercial settings. The baffle trim ring surrounds an integrated LED 1000 lumen light engine ready to emit bright, functional light.

Eyeball 5-CCT

The smooth metal trim provides an elevated look. The adjustable light source can be aimed allowing the trim to be used as a standard downlight, accent light, wall wash or sloped ceiling light. This unique design allows the adjustable light source to remain hidden within the trim, allowing for the cleanest appearance. An integrated ceiling pitch indicator makes adjusting the light to match the ceiling pitch easy. The 5-CCT selectable LED light engine offers flexibility in application, allowing for the choice of 5 different color temperatures: warm, soft, bright, cool or daylight.

FEATURES

- Material is Coroplast™, which is made from polypropylene co-polymer resin.
- Deflection temperature F(@66psi) = 194 (90°C).
- Melting point = 162°C, 324°F.
- Normal temperature performance range = -17°F to 160°F.
- MSDS available upon request.

APPLICATION

- Requires no insulation on top.

Surface Mount Downlighting

Featuring Intrinsic Surface Mount LED

Intrinsic Surface Mount LED

Elevate your design vision with just the flip of a switch with our Intrinsic Surface Mount LED Collection. The simple, classic design of these light fixtures can easily be installed into a variety of style applications in both residential and commercial settings. We offer two different sizes of surface mounts, both coated in a crisp white finish, to meet your unique design needs. Each smooth trim ring surrounds an integrated LED light fixture ready to emit general ambient lighting wherever it calls home in your design plan.

LED FEATURES

- Wet location listed.
- 120v input voltage.
- 60 Lumens per watt.

Intrinsic Directional Surface Mount LED

The Intrinsic Surface Mount Eyeball LED represents the ultimate in design flexibility and ease of installation. Installation to a standard height junction box is made easy with the intuitive snap spring design. Suitable for residential and commercial needs, its clean profile elegantly accents the ceiling while the light can be adjusted to offer standard downlight, accent light, wall washer or sloped ceiling light. An integrated ceiling pitch indicator makes adjusting the light to match the ceiling pitch easy.

Everlume® Linear Panel LED

The Everlume™ Linear Panel LED is a modern take on a classic rectangular wrap frame. Its clean low-profile design has a frosted polycarbonate diffuser lit by LEDs along the perimeter of the fixture. Light is diffused through a light guide, providing even illumination without dark spots, shadow or glare. Hardware and fasteners are not visible after installation, providing a clean appearance. The fixture can be mounted to off-centered junction boxes making aligning multiple fixtures on center easy. This product is a great addition to laundry rooms, kitchens, walk in closets, garages and basements.

Undercabinet

Shining Useful Light.

Which Hide-A-Lite™ Fits?

There are two primary types of HIDE-a-LITE™ lighting: linear undercabinet, and tape. Linear undercabinet lighting evenly illuminates under the entire cabinet length. Tape lighting is flexible and can be used where space is limited, or where longer lengths of light are needed.

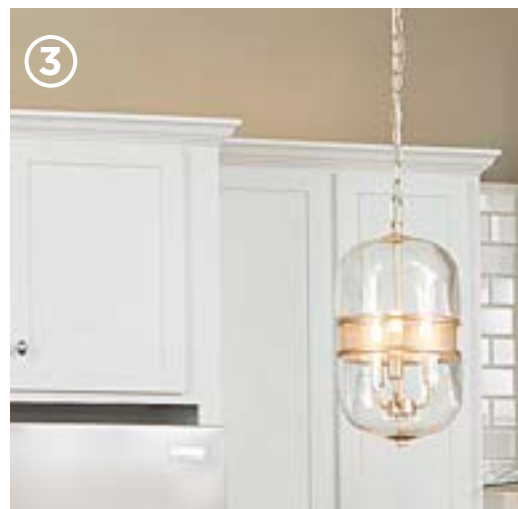

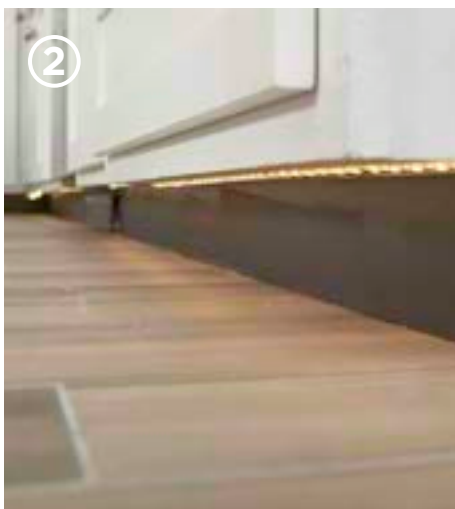

Quick Tip

Most rooms will need a combination of some or both of these types of task and ambient lighting. Begin by assessing the size of the space.

Linear Undercabinet

Pick linear undercabinet lighting where even illumination and high light levels are desired. It comes complete with 120V direct wire application, eliminating the need for remote power supplies or conversion boxes, and an on-off switch for easy access task lighting.

Tape Lights

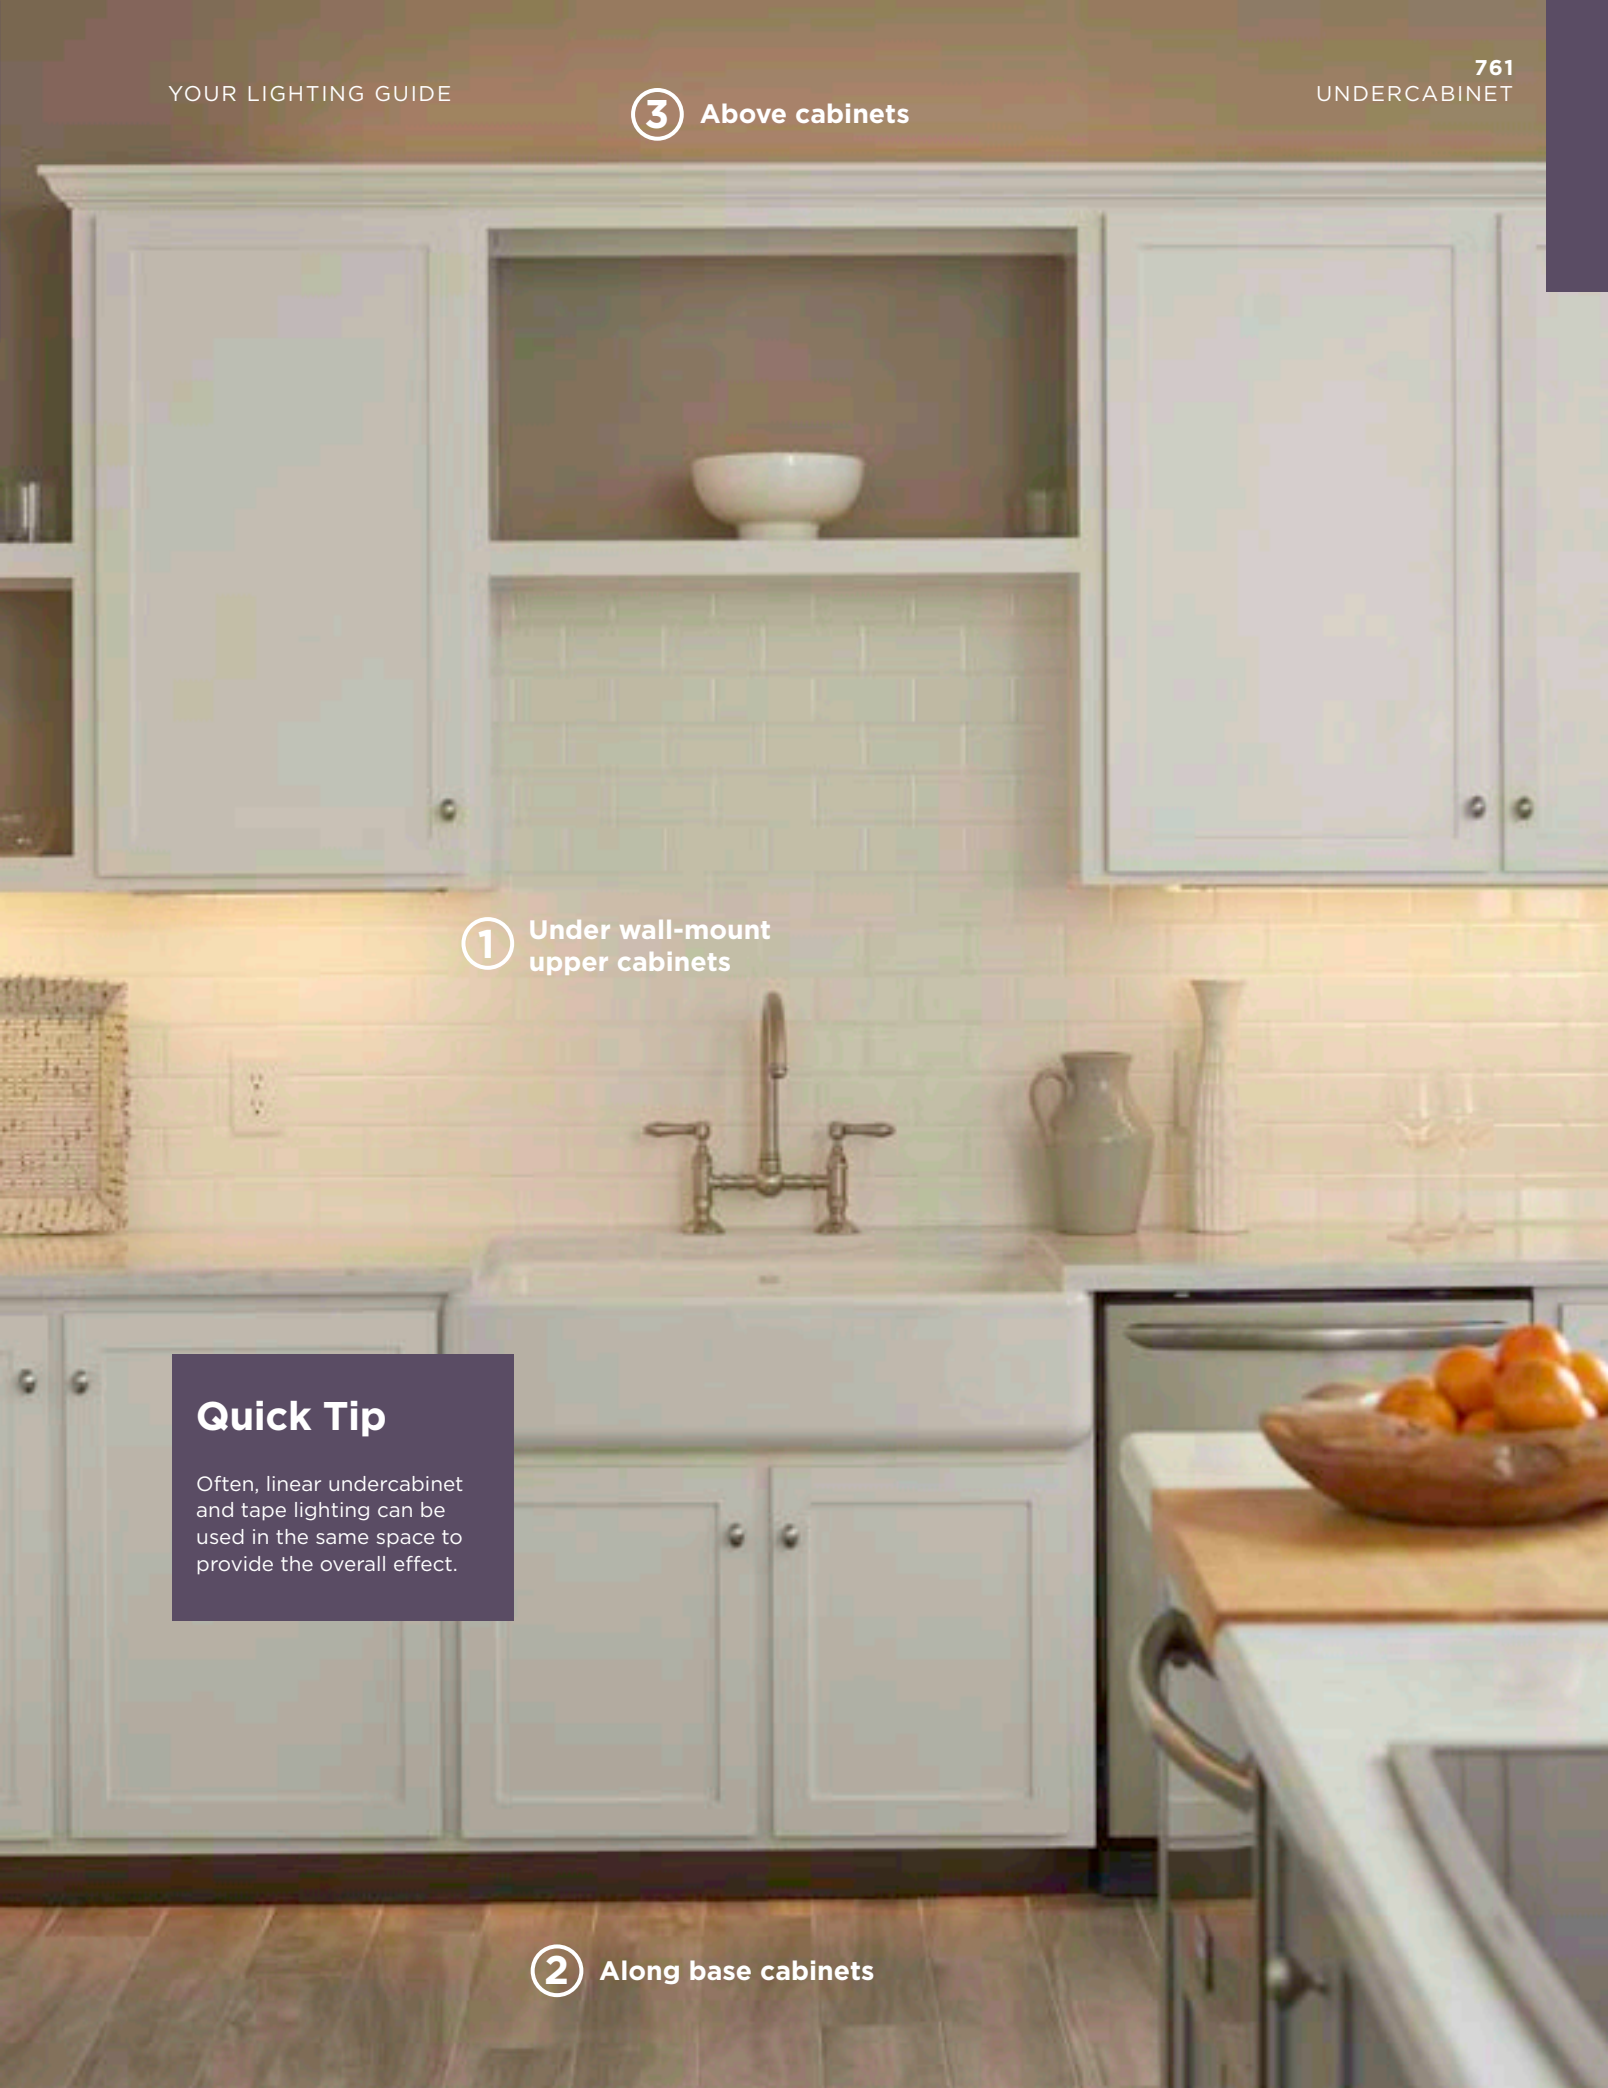

Available in various lengths, tape lights can be cut to fit a specific size. Its length, low profile, flexibility for navigating curves, and adhesive backing that sticks to many surfaces makes it ideal for use in hard-to-light areas.

1 Under wall-mount upper cabinets

Quick Tip

Often, linear undercabinet and tape lighting can be used in the same space to provide the overall effect.

2 Along base cabinets

Linear Undercabinet 5-CCT LED

028 Satin White

HIDE a LITE™

The Hide-a-Lite Linear Undercabinet LED has an elegant design combined with energy efficient LED light, providing the ideal solution for residential and light commercial applications. The clean design of its aluminum housing features a lens that optimizes light distribution, ensuring for proper illumination of the workspace below. The 5-CCT selectable LED light engine offers flexibility in application, allowing the choice of 5 different color temperatures: Warm, Soft, Bright, Cool, Daylight, allowing for the best lighting color to fulfill the design intent of the space. An access plate and quick connect wire connectors make installation easy. Fixture is direct wired. Two armored cable fittings are also included, an on-off switch on the front allows for easy task light illumination.

Linear Undercabinet LED

020 Antique Bronze

028 White

The HIDE-a-LITE™ Linear undercabinet series provides the ideal solution for residential and light commercial applications. The luminaire is constructed from an aluminum housing and features a lens designed to optimize light distribution, ensuring for proper illumination of the work space below. The HIDE-A-LITE linear undercabinet utilizes a through hole mounting method to allow for an easy installation. The luminaire can be direct wired, removing the need for separate cords. Two armored cable fittings are included with the product for applications requiring the use of armored cable. An on/off switch is located on the front of the luminaire, allowing for easy access when used as a task light. The energy efficient LEDs can be dimmed down to 10% with many forward phase (TRIAC) and electronic low voltage (ELV) dimmers.

Tape Undercabinet System LED

LED Tape provides lighting to enhance aesthetics, while also aiding in tasks around the home. Common applications for LED Tape include; undercabinet lighting in kitchens to add illumination to work surfaces, highlighting back splashes in kitchens or bathroom areas and adding toe kick lighting at the bases of cabinets for dramatic and functional lighting.

LED FEATURES

- Field cuttable at every 4" to end of run.
- cETLus listed damp location.
- 300 lumens per foot and consumes 4.2 watts per foot (71 lumens/w).
- 90 CRI, 50,000 hr. life.
- 5 year warranty.

HIDE a LITE™

Follow Five Simple Steps:

1. Choose Tape Length

12", 60" and 240" lengths to meet different sized projects and features an adhesive backing for easy application to desired surfaces.

Flexible tape can be cut every 4 inches (cut ends can be reconnected, allowing for full use of LED tape).

Tape is fully enclosed in silicone to allow for use in damp location. 24 VDC tape pairs with 24 VDC power supplies.

3. Additional System Connectors

Various connectors allow for customized layouts. Use linking connectors to join runs of tape. Use the L Connector for 90° bends and use the Y Connector to split one run of tape into two.

Connectors feature piercing conductors for secure connection.

Y, L and multi-linking connectors allow for flexibility in design.

Connectors provided with snap-fit covers for intuitive installation.

All fixtures:

Photocell Step Lights LED

- 020 Antique Bronze
- 031 Black

Add safety and security with these LED steplights. The integrated photocell automatically turns on and off the fixture with the sunset and sunrise. Great for accenting and lighting outdoor walk ways. These lights include both the horizontal and vertical face plates, allowing distributors to provide more options in fewer skus.

FEATURES

- Includes both horizontal and vertical faceplates
- Integral power supply module in a compact package
- Consumes less than 5w of power per fixture
- Enclosed in a gasketed lens
- cCSAus listed for wet locations
- Warm white 3000K dimmable LEDs
- 90 CRI

DC Mode-261 lumens.
(Running on Emergency Battery)

Reference Guide

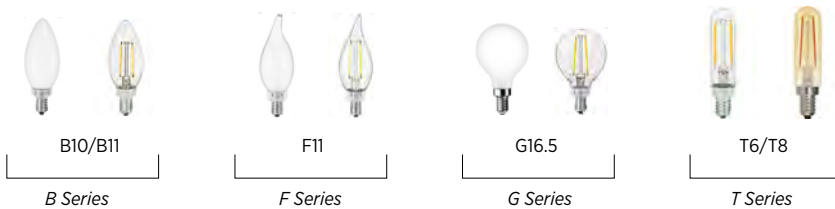

Lamp Selection Guide

It's important to note, not all bulbs are created equal. Choosing the right source for your light fixtures can affect the functionality and appearance of your home, as well as your energy bill. Light output, energy efficiency, durability and style greatly vary from source to source. Consider the following five categories, wattage, lumens, efficacy, temperature and style to choose a lamp that helps you meet design and efficiency goals.

Medium Base - E26

Candelabra Base - E12

PIN Base

Bulb Bases The bulb base is determined by the type of socket in the fixture and is noted on the fixture’s catalog page or spec sheet on progresslighting.com.

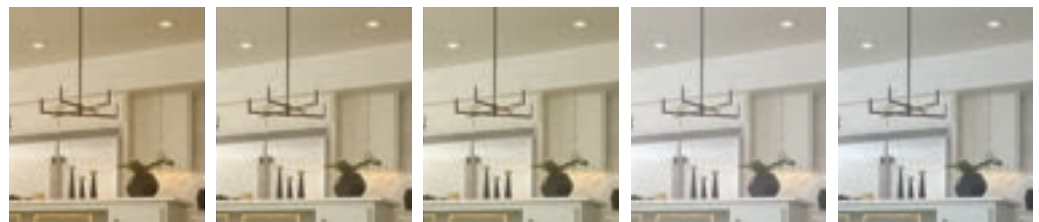

Color Temperature Information

Color temperature refers to the visible color of a white light source, or how the actual light appears to your eye. It is measured on the Kelvin (K) scale, numbered from 1,000 - 10,000.

- Warm light is understood to be up to 3000K (ranges from yellow to reddish)
- Cool light is typically 3500K – 5000K and will have hues from blue to white.

5-CCT

4000K
Cool White

5000K
Daylight

Lumens

Lumens measure the amount of light produced by a bulb. Put simply, the more lumens a light bulb has, the brighter the light. For lights that are further from the area they are lighting (such as downlights in a 12-foot ceiling) – you will want a higher lumen output to ensure functional illumination. For task applications, higher lumen output is also desired to provide bright, direct light over work areas.

Equivalent Light Output

Pay careful attention to the bulb manufacturer’s caution statements regarding use in enclosed fixtures or dimmer compatibility.

LEGACY WATTS (W)	TYPICAL LIGHT OUTPUT (LUMENS)	LED EQUIVALENT WATTS (W)
40	450	10
60	800	12.5
75	1,100	15
100	1,600	17.5
150	2,600	20

Foyer Sizing Guides

Foyers

The rule of thumb is to accommodate 2.5 - 3 inches of chandelier height for each foot of ceiling height.

9' - 10' Ceiling

Hang a fixture using a guideline 7-to-7.5 feet should proceed sufficient results.

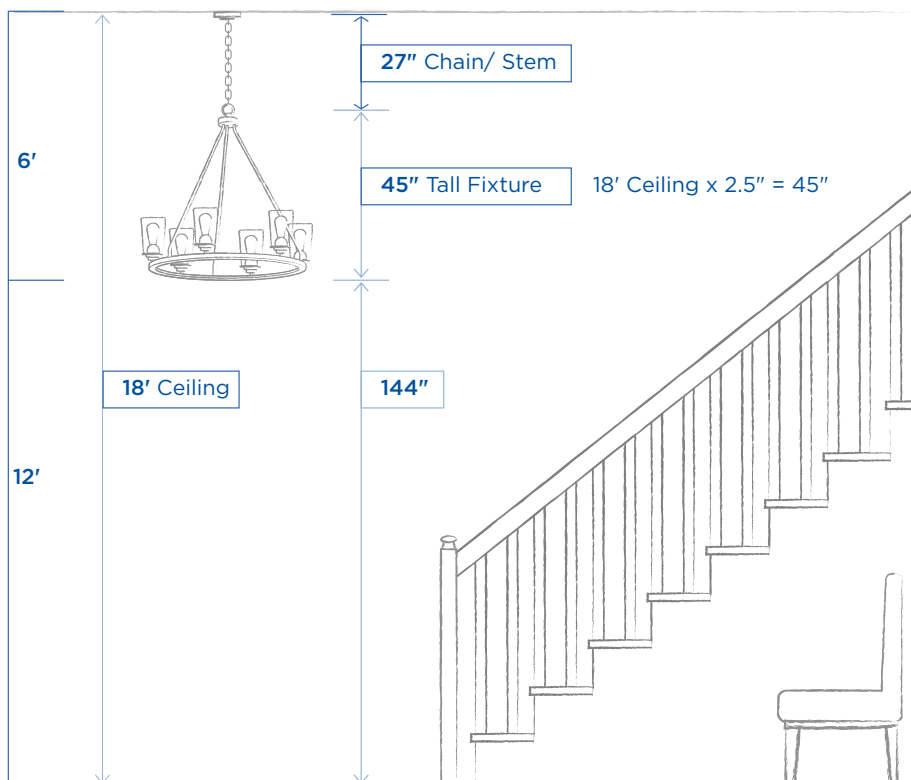

11' + Ceiling

Divide the vertical space into thirds, positioning the fixture(s) two-thirds of the distance from the floor, so that the ceiling height does not overwhelm the space. If the foyer is large and has a high ceiling, it's recommended to choose a slightly larger fixture than formulas suggest.

**Note confirm that light doesn't interfere with door swing. If it does, place it further back.*

Foyer Sizing Recommendations

ROOM WIDTH (smallest rm. dimension)	Fixture Width			ROOM HEIGHT	Fixture Height	
	Max.	Target	Min.		Max.	Min.
5'	21"	16.8"	9"	8'	12"	-
6'	25.2"	20.2"	10.8"	9'	24"	-
7'	29.4"	23.5"	12.6"	10'	30"	18"
8'	33.6"	26.9"	14.4"	11'	33"	19.8"
9'	37.8"	30.2"	16.2"	12'	36"	21.6"
10'	42"	33.6"	18"	13'	39"	23.4"
11'	46.2"	37"	19.8"	14'	42"	25.2"
12'	50.4"	40.3"	21.6"	15'	45"	27"
13'	54.6"	43.7"	23.4"	16'	48"	28.8"
14'	58.8"	47"	25.2"	17'	51"	30.6"
15'	63"	50.4"	27"	18'	54"	32.4"
16'	63"	53.8"	28.8"	19'	57"	34.2"
17'	71.4"	57.1"	30.6"	20'	60"	36"
18'	75.6"	60.5"	32.4"	21'	63"	37.8"
				22'	66"	39.6"
				23'	69"	41.4"
				24'	72"	43.2"

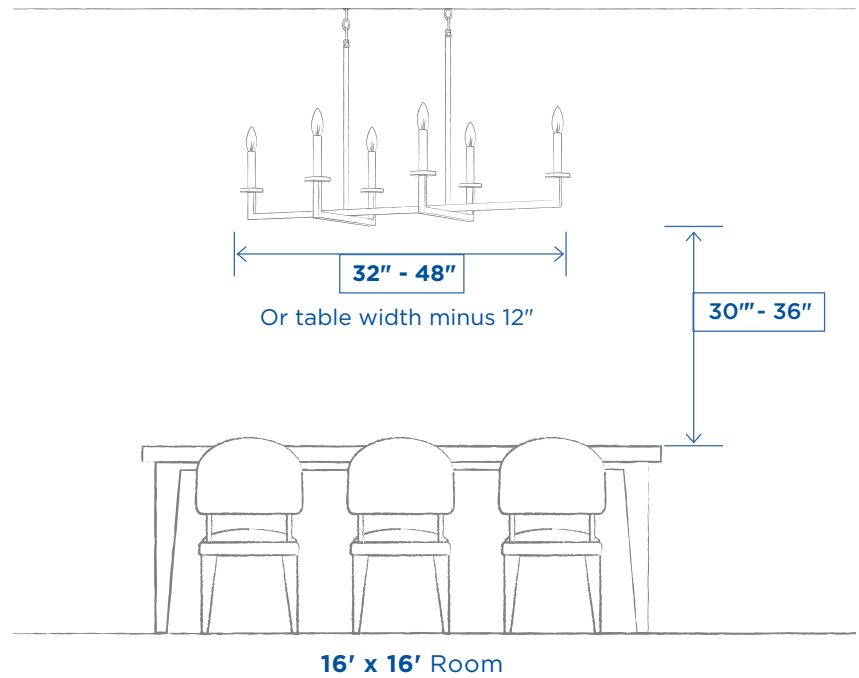

Dining Sizing Guides

Dining

The table under the fixture should serve as a guide for selecting the right fixture for your space. To calculate the correct width, start with the width of your table and subtract 12". (For example, if your table is 42" wide, your chandelier should not be more than 30" wide.)

Based on an 8' ceiling, your fixture should hang between 30"-36" above the table.

Dining Sizing Recommendations

ROOM WIDTH (smallest rm. dimension)	Fixture Width		ROOM HEIGHT	Fixture Height
	Max.	Min.		Max.
10'	30"	See Notes Below	8'	24"
11'	33"		9'	27"
12'	36"		10'	30"
13'	39"		11'	33"
14'	42"		12'	36"
15'	45"		13'	39"
16'	48"		14'	42"
17'	51"		15'	45"
18'	54"		16'	48"
20'	57"		17'	51"
21'	63"		18'	54"

*Minimum Width Recommendations:
Add width of room + length and use this number as inches*

Note: For 10'-0" ceiling heights or below, fixture should not exceed width of table less than 12".

Dining Mounting Recommendations

Ceiling Height	Distance from bottom of fixture to table surface
8'	30"
9'	33"
10'	36"
11'	39"
12'	42"
Above 12'	Fixture should be mounted more in relation to the room than to the table

Kitchen Sizing Guides

Kitchen Pendants

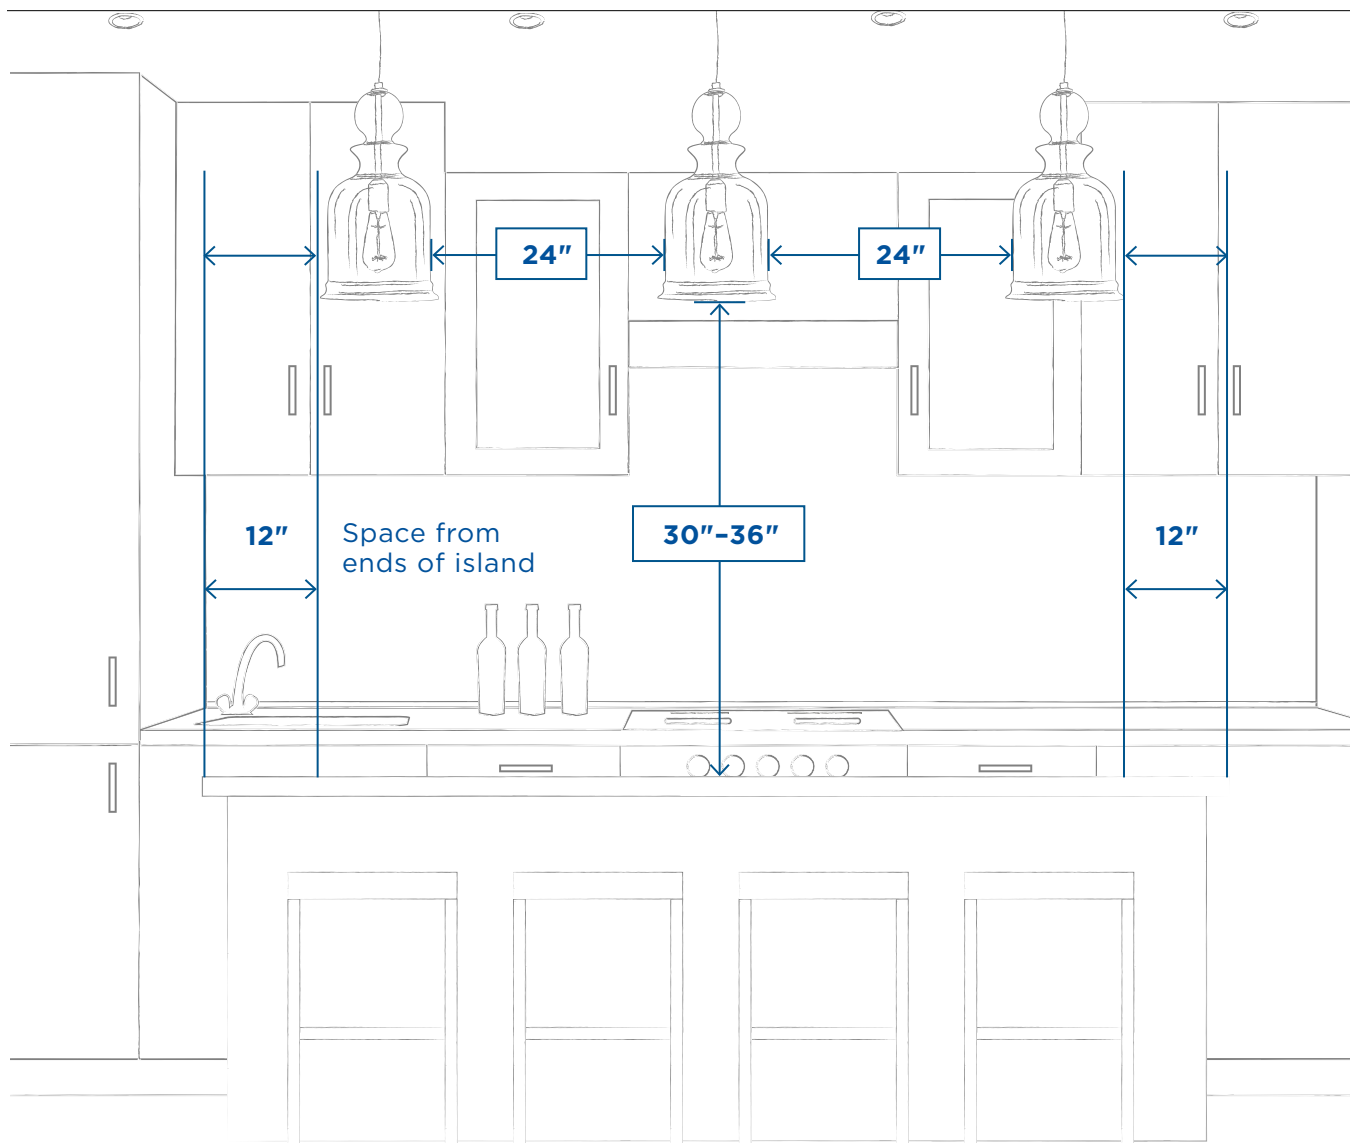

Start the row 12"-15" in from either end of the island and then space the pendants evenly within that span.

Space pendants around 24"- 30" apart from one another (depending on style & quantity).

Pendants should be at least 10" smaller in diameter than the width of the countertops. Consider the rule of odd numbers (unless using oversized fixtures).

Keep 30"-36" of space between the countertop and fixtures.

- 8' island = 96"
- $96" - 24" (12" \text{ from ends of island}) = 72"$
- $72" - 24" - 24" = 24"/3 = 8" \text{ diameter max.}$
(spaced 24" apart from each other)
- $72" - 30" - 30" = 30"/3 = 4" \text{ diameter min.}$
(spaced 30" apart from each other)

Bath Sizing Guides

Single Bowl Vanities

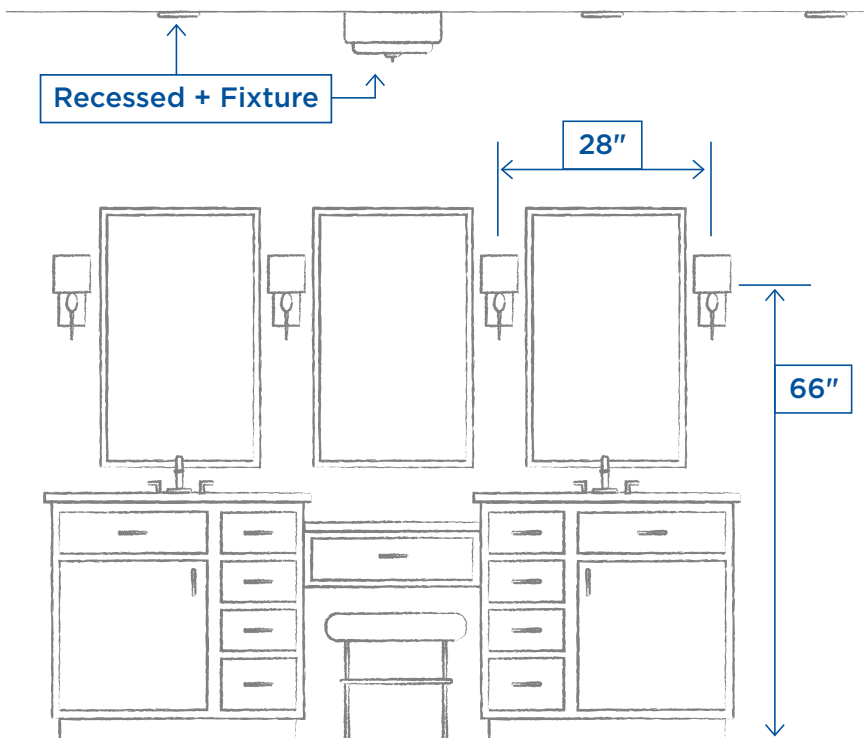

Position fixtures on both sides of the mirror to provide shadow-free lighting for your face. Ideal width is at least 28" apart and centered 66" above the floor, depending on mirror size and ceiling height.

Task Lighting

Center recessed downlights 24" to 36" between where the face and the mirror are at the vanity to eliminate shadows.

Vanities With Two Sinks

Consider mounting two separate fixtures, one above each sink. They should be approximately 75"-80" above the floor.

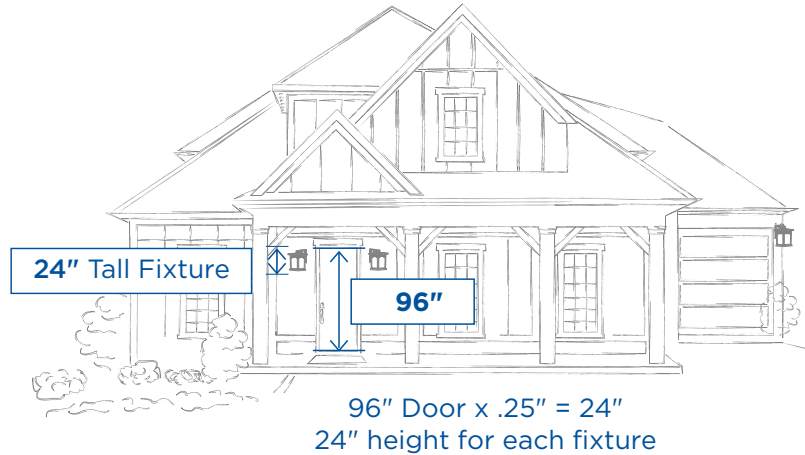

Outdoor Sizing Guides

Front Door - Wall Lanterns

For a front door with two lanterns, the lantern height should be approximately 1/4 the height of the door. Front doors with one lantern should be approximately 1/3 the height of the door. Mount lanterns approximately 66" above floor for accurate lighting effects.

For a door that is 96" in height, multiply the height by .25 to get 24" for the suggested height of each fixture.

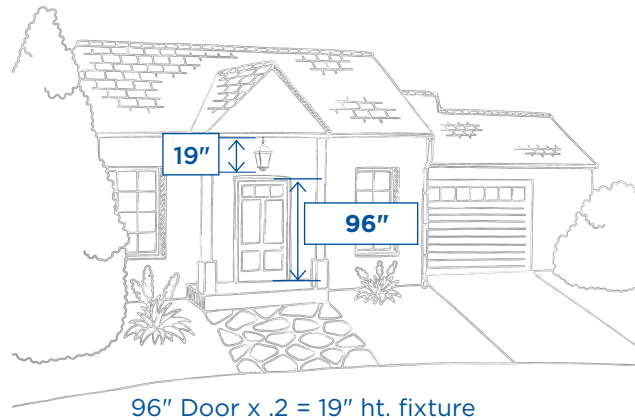

Front Door - Hanging Lanterns

For a front door with a hanging lantern, the lantern height should be approximately 1/5 the height of the door.

Hanging lanterns are hung using chain or stems connections, so be sure to consider the additional length of the chain or stem. The hanging lantern should not hang below 7' from the ground, including the fixture, chain and stem.

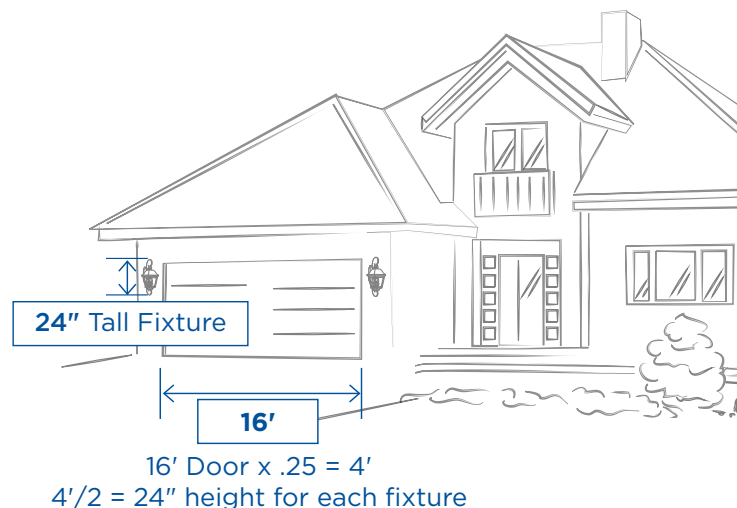

Allow 6" minimum clearance from the bottom of the lantern to the top of the door to allow the door to open and close. If there is not enough clearance, consider using a flush mount outdoor fixture. the height of the door.

Garage - Wall Lanterns

If you are installing two or more wall lanterns on the exterior of your garage, the lantern height should be approximately 1/4 the height of the door. For installing a single wall lantern, the height of the fixture should be approximately 1/3 the height of the door.

For a garage door that is 16' in height, multiply the height by .25 to get 4'. Divide 4' by 2 to get 24", which is the suggested height of each fixture.

Icon Guide

Products referencing this logo meet the energy efficiency requirements for light fixtures set forth in ENERGY STAR® product specifications. Please refer to www.energystar.gov for specific product qualifications and list of certified products.

Please note dry location products should only be used indoors. Even if an outdoor area or screened-in porch is covered, the fixture can be affected when exposed to humidity. You can, however, “bring the outdoors inside” – as using outdoor products are perfectly acceptable to use in interior spaces.

Damp Location products and fixtures can be used in covered spaces outdoors or indoors.

If the product will have direct contact with water, you'll need to ensure that the product has a “wet” listing. Wet location products may also be used indoors.

This marking indicates fixtures that have an integrated LED or replaceable LED module that has been tested and listed in the California Appliance Database. Check for certified lamps, fixtures or LED light engines by searching the MAEDBS database. Go to cacertappliances.energy.ca.gov

DC motor ceiling fans feature high torque for increased air movement, whisper quiet operation, and greater energy efficiency than AC motors.

Products with this icon can be installed with the shades facing up or down.

Products with this icon can be installed horizontally or vertically.

Products with this icon are suited for wall or ceiling installation.

Products with DURASHIELD, use a high-performance outdoor material that's built to last. Made of composite materials with UV protection for maximum durability in harsh environments – resisting rust, corrosion and fading.

Table 150.0A defines products that do not have to meet JA8 and can be used to comply with 2016 Title 24.

Products comply with the California Appliance Efficiency Regulations. Certified products are listed on the appliance efficiency database found at www.appliances.energy.ca.gov.

Products with this icon are Dark-Sky Friendly: in accordance with international dark sky initiatives, these fixtures help to minimize glare while reducing light trespass and skyglow (they don't pollute the night sky.)

Products with this icon have a feature that allows for selectable CCT (correlated color temperature)

Ceiling fans with this icon have passed the cUL requirements and are available for sale in Canada. These products include the additional safety features needed to comply with the regulations in Canada. Items with the icon are listed with NRCAN.

Complies with American with Disabilities Act

Products with this icon are WiFi compatible and may be controlled with WiFi when one of the following controls is added;

- AC Motor fans can add the P2667-31 WiFi remote control
- DC Motor fans that are WiFi compatible can add the P2673-01 WiFi module.

With the addition of one of the above controls, you may easily control your ceiling fan or light with your smart phone, tablet, voice controls, or hand held remote. Use the Smart by Bond technology to control on/off function of the fan and the light kit along with full range dimming and fan speed control.

Warranty

Every effort has been made to ensure the accuracy of information in this catalog. Progress Lighting reserves the right to make product changes from time to time, without prior notification, which may change the information provided in this catalog. Errors brought to our attention will be corrected in subsequent issues.

UL, CSA, or ETL Listed or Classified unless otherwise noted. Bulbs not included with fixtures unless specified. Specifications subject to change without notice.

Metal finishes not specified as "solid" have quality plated or painted finishes.

Finish representations are high resolution digital reproductions, and, while every effort has been made to render colors accurately, they may vary slightly from the actual product, especially hand-painted finishes, due to the nature of hand craftsmanship.
